TABLE OF CONTENTS

		PAGE
Vascular anatomy of Ranalian flowers. I. Ranunculaceae (with thirty-four figures)	*George Hume Smith*	1
Morphology of *Preissia quadrata* (with plates I, II, and sixteen figures)	*Arthur W. Haupt*	30
Cytological study of meiosis in anthers of *Oenothera muricata* (with plates III, IV)	*Ralph E. Cleland*	55
Organization and significance of lenticels in dicotyledons. I. Lenticels in relation to aggregation and compound storage rays in woody stems, lenticels, and roots (with plates V, VI)	*Ralph H. Wetmore*	71
Absorption of water by barley seeds. Contributions from the Hull Botanical Laboratory **350** (with one figure)	*H. S. Wolfe*	89
Organization and significance of lenticels in dicotyledons. II. Lenticels in relation to diffuse storage rays of woody stems (with plates VII–X)	*Ralph H. Wetmore*	113
Influence of mineral elements upon development of chloroplast pigments of soy beans (with five figures)	*Carl G. Deuber*	132
Translocation of fats as such in germinating fatty seeds. Contributions from the Hull Botanical Laboratory **351**	*J. B. Rhine*	154
Plant successions about Douglas Lake, Cheboygan County, Michigan (with three figures)	*Frank C. Gates*	170
Temperature and respiratory enzymes of apples. Contributions from the Hull Botanical Laboratory **352** (with plate XI)	*Brooks D. Drain*	183
Surface forces of soils within the range of hygroscopic moisture. Contributions from the Hull Botanical Laboratory **353** (with one figure)	*H. S. Wolfe*	195
Oedogonium nebraskensis, sp. nov. Contributions from the Hull Botanical Laboratory **354** (with twenty figures)	*Hiro Ohashi*	207

PAGE

Germination of spores and early stages in development of gametophyte of *Marchantia polymorpha*. Contributions from the Hull Botanical Laboratory **355** (with plates XII–XV) - - *Sister Mary Ellen O'Hanlon* 215

Vascular tissues of *Microcycas calocoma* (with plates XVI–XVIII and three figures) - - - - *Mintin A. Chrysler* 233

An ecological study in Utah. Contributions from the Hull Botanical Laboratory **356** (with fourteen figures) - - - - - - - - - - *P. Alice Evans* 253

Seasonal development of growth layers in *Fraxinus campestris* and *Acer saccharinum* (with plates XIX–XXI and two figures) - - - - *Herbert C. Hanson* and *Bernice Brenke* 286

Effect of light intensity on growth of soy beans and its relation to the autocatalyst theory of growth. Contributions from the Hull Botanical Laboratory **357** (with eight figures) - - - *Henry W. Popp* 306

Effect of certain deficiencies on nitrogen metabolism of plants - - - - - - - - - - *R. C. Burrell* 320

Carpeloid stamens of *Podophyllum peltatum* (with five figures) - - - - - - - - - *M. Louise Sawyer* 329

Cosmos Blakei, a new species from Guatemala. Contributions from the Hull Botanical Laboratory **358** (with plate XXII) - - - - - - *Earl Edward Sherff* 333

Distribution of native plants and weeds on certain soil types in eastern Texas. Contributions from the Hull Botanical Laboratory **359** - - - *S. R. Warner* 345

Effects of X-rays upon growth, development, and oxidizing enzymes of *Helianthus annuus*. Contributions from the Hull Botanical Laboratory **360** (with eleven figures) - - - - - *Edna L. Johnson* 373

Possible etiological rôle of *Plasmodiophora tabaci* in tobacco mosaic - - - - - - - - *G. K. K. Link*, *P. M. Jones*, and *W. H. Taliaferro* 403

Temperature and respiration of ripening bananas. Contributions from the Hull Botanical Laboratory **361** (with one figure) - - - - *Albert Jackson Olney* 415

Structure of Pennsylvanian plants from Illinois. I. Contributions from the Hull Botanical Laboratory **362** (with plates XXIII, XXIV) - - *J. Hobart Hoskins* 427

Legume inoculation as influenced by stock and scion (with two figures) - - - - - - *Thomas E. Richmond* 438

PAGE

BRIEFER ARTICLES—

Corrugated aluminum sheets for the botanist's press (with two figures) - - - - - - *F. L. Stevens* 104

A genetical interpretation of ecological adaptation - - - - - - - - - - - *Karl Sax* 223

Structural weaknesses in interspecific grafts of *Pyrus* (with one figure) - - - - - - *E. L. Proebsting* 336

CURRENT LITERATURE - - - - - - - - - 107, 228, 339, 443

DATES OF PUBLICATION

No. 1, September 30; No. 2, October 28; No. 3, November 24; No. 4, December 29

ERRATA

VOL. LXXXI

P. 285, line 24, *for* homoetypic *read* homeotypic

P. 285, line 3 from bottom, *for* Fig. 9 *read* Fig. 7

P. 287, line 7, *for* plates in *read* plates on

P. 290, magnifications of fig. 1, *for* ×330, ×330, ×85 *read* ×500, ×500, ×125 respectively

VOL. LXXXII

P. 1, title, *for* ascular *read* vascular

P. 21, line 34; p. 22, lines 12 and 19, *for* five to numerous *read* five numerical

P. 31, line 1, *for quatrata read quadrata*

P. 64, line 6 from bottom, *for* 13, *read* 13,

P. 64, line 4 from bottom, *for* 7. 6 *read* 7. 6.

P. 85, line 15, *for* and the permanent *read* and to the permanent

P. 85, line 16, *for* group are impressive *read* group, is impressive

P. 97, Table III, eleventh heading, insert *j*

P. 101, line 3, *for* cockelbur *read* cocklebur

P. 204, line 6 from bottom, *for* humidity of *read* humidity at

P. 205, line 3, *for* soil surfaces *read* soil surface forces

P. 207, line 3 from bottom, *for* 1.5 inches *read* 0.15 inches

P. 239, last line, *for Dadoxylen read Dadoxylon*

P. 264, last line under HERBACEOUS UNDERGROWTH, *for* mucronata *read* aquilinum

P. 343, line 5, *for* GROSSWEILER *read* GOSSWEILER
